

## KT FLEXMOUNT™

The KT FLEXMOUNT™ will allow the KT Gunfighter/Denfinder Holster to mount onto your LBE, SAPI Plate Carriers, and other MOLLE compatible gear. We at KT have invested significant time and effort to make the KT FLEXMOUNT™ as modular and affordable as possible. The CORE of the KT FLEXMOUNT™ are two High Strength blocks of Black DELRIN® angled to accommodate most Kydex® Holster setups and sizes. DELRIN® is a very durable and rigid material that it said to have bridge the gap between plastic and metal. The KT FLEXMOUNT™ utilizes the readily available MOLLE-Lok.
